

HOW TO REACH

Nagaland University, Lumami, is 22 km away from the nearest town Mokokchung. The nearest rail station is Mariani, which is approximately 85 km away from Mokokchung. Tata Sumo services are available from Jorhat or Mariani to Mokokchung town in the morning as well as in the afternoon. One can also get direct overnight buses from Guwahati to Mokokchung (which starts around 6:30 pm from Guwahati and reaches around 7 am the next day).

VENUE

The seminar will be held at Nagaland university, headquarter, Lumami.

Tourist destination

Some of the popular attractions close to Lumami are Longkhum village, as an old Naga saying goes “a single visit to Longkhum is not enough, for your soul stays behind the first time and you have to return there once for more to get it back”. It has numerous shrine dedicated to God Longlanpa Tsungrem and is well known for its Rhododendrons and Longlangpa (Stone Bridge). It is about 17 kms away from Mokokchung Town called the Romeo and Juliet of the Ao Naga tribe. At the vicinity of the village is a lake with boating facility and guesthouse.

Time-Pillar, village museum, morungs and monuments are worth visiting. It is about 15 km from the heart of Mokokchung Town. “Just a Venue” which is situated around 20 minutes drive away from Mokokchung.

It is extremely attractive place to relax and enjoy the bliss of nature. It has swimming pools for adults and children, tree house, lounge, etc.

NATIONAL SEMINAR ON CLIMATE CHANGE AND SUSTAINABLE DEVELOPMENT: with special focus on North East India

NSCCSD-2017
23rd - 24th March 2017

Organized by

Nagaland University
Teachers' Association (Lumami)

ABOUT THE SEMINAR

Climate change poses the single greatest obstacle to reducing poverty and inequality and promoting prosperity and stability. There is powerful evidence that Climate change could roll back decades of development gains and seriously threaten future development prospects, forcing millions more people to live in poverty. Recognising this, the year 2015 witnessed two landmark international events: the historic climate change agreement under the United Nations Framework Convention on Climate Change (UNFCCC) in Paris in December 2015 and the adoption of the Sustainable Development Goals in September 2015.

Climate change and sustainable development are the two major challenges of the 21st century. Climate change is considered as one of the most critical challenges for Sustainable Development. This is due to the fact that climate change can alter the paths and levels of future sustainable growth and development. Therefore climate change issue is part of the larger challenge of sustainable development. Climate change must be confronted with sustainable development principles constantly in mind, an understanding that is reflected in the United Nations Framework Convention for Climate Change.

North Eastern Region is critical from climate change and sustainable development perspective as over 80% of the population in the region is basically rural and depends on climate-sensitive natural resources such as agriculture, forest biodiversity and water availability. However, despite these facts the impact of climate change on regions like northeast India are less explored despite being viewed as a region being more sensitive to climate change.

Keeping this in mind, this National Conference is being organized by Teachers of Nagaland University with an objective to discuss strategies and share ideas on this issue of contemporary importance. On behalf of the Teachers' Association and organizing committee, we invite you to participate in this conference.

Lanusashi Longkume
President NUTA(L)

Dipak Sinha
Convener, NSCCSD-2017

Sub-themes: Papers can be presented under the following sub-themes:

- Natural Resource Management
- Sustainable Development and its Socio-Economic and Political Dimensions
- Environmental Education, Policies and Laws
- Women and Environment
- Historical and Literary Perspectives on Environmental Issues
- Agriculture, Livelihood, Biodiversity, Forest, Water Resources and Climate Change
- Strategies for Sustainable Development
- Indigenous Systems of Sustainable Development
