Dr. Sarat Chandra Yeniseti, Ph.D., PDF (NIH, USA and Univ. Regensburg, Germany)
Associate Professor and Principal Investigator

No. NU/Zool/YS/DBT-UEXCEL/2017-1

14-2-2017

TENDER NOTICE

We are hereby inviting to submit the sealed quotation for the following consumables and services for small RNA sequencing (12 samples)- under Unit of Excellence in Biotechnology (UEXCEL) programme of DBT (Department of Biotechnology), Government of India, funded research project entitled- “Mechanistic Insights into the Therapeutic Propensity of Natural Products with Anti-oxidant and Anti-inflammatory Properties in *Drosophila* Model of Parkinson’s Disease” as per details given below within 15 days from the date of notification.

Details: NGS small RNA Library preparation kit, Sequencing on Illumina platform 75x1 SE seq per run with 10-12 million Single end reads per sample, Small RNA standard analysis, Raw data QC, differentially expressed small RNA, Target gene prediction, Annotation, GO analysis and Pathway analysis.

(Dr. Sarat Chandra Yeniseti)

Principal Investigator
