Dr. Merensangla Longkumer, SAS, NU

Two-Day National Seminar
on

Infrastructure and Sustainable Technology Solutions: Transforming Agriculture, Markets and Rural Livelihoods

(14-15 February 2025)

Organised by

Department of Rural Development and Planning,
School of Agricultural Sciences, Nagaland University

In collaboration with

Indian Institute of Engineering Science and
Technology, Shibpur, West Bengal

Under the Research Project funded by ICSSR under
Vision Viksit Bharat@2047

Venue

School of Agricultural Sciences (SAS),
Nagaland University (NU)

Medziphema campus-797106

Did you know?

The intersection of infrastructure development and sustainable technology is crucial for driving agricultural productivity, enhancing market efficiency, and improving rural livelihoods. Improving connectivity is one of the first step to directly and indirectly empower the rural population by creating new economic opportunities and increasing productivity. This seminar aims to formulate various ideas and innovations to addresses key challenges and opportunities for rural and regional development.

5

Seminar Themes

- ★ Highway Development and Sustainable Livelihood
- ★ Impact of Infrastructure on Agricultural Productivity, Price Dynamics and Rural Development
- ★ Infrastructure Policy Impact on Agricultural Productivity and Rural Economy
- ★ Transforming Rural Economy through Access
- ★ The Role of Infrastructure in Supply Chain in Rural Domain.

About SAS, NU

The School of Agricultural Sciences (SAS), NU Medziphema Campus, is one of three campuses under Nagaland University. Established in 1978 under the erstwhile North Eastern Hill University (NEHU). It became integral part of Nagaland University in 1994. The school offers UG programs following the ICAR 6th Dean's Committee recommendations and PG & Ph.D. programs as per ICAR BSMA Committee guidelines. Spread across 13 departments. It emphasises advanced education through teaching, research, and extension; promotes skill oriented vocational courses; trainings & field demonstrations to the farming community and fosters sustainable agriculture for the hill region.

Target participants

- ☑ STUDENTS, SCHOLARS
- ☑ FACULTIES, SCIENTIST
- ☑ ALL DELEGATES

Delegations from all streams of agriculture and allied sciences, social sciences, technical science etc. are welcome if their work is relevant to the seminar themes
