

LIST OF ITEM TO BE SUPPLIED

Sl.	Name of the machineries	Specification	Quantity
1.	Cone pulveriser	Grinding turmeric rice, daal, millets, besan, raago, jawar and other pulse. Contact parts completely made of stainless steel 304 non contact parts. Chassis with anti vibrating pads made of mild steel with powder coated. With 10HP motor ABB or Crompton 3Ph motor pulley and V belt motor guard cotton cloth for cyclone capacity : 50-60kgs per hour Depend on material and mesh Machine size : 7"x13"	1
2.	Vibro sifter for sieving turmeric	Sieving turmeric & other powders. Contact parts completely made of stainless steel non contact parts made of mild steel eith powder coated. With vibro motor 0.5HP size 24" single deck	1
3.	Turmeric slicer	Contact parts completely made of stainless steel Non contact parts made of mild steel with powder coated. With 1Hp single phase motor capacity 50-75kgs per hour One set of blades will be given extra	1
4.	Packing machine	Contact parts made of stainless steel non contact parts made of mild steel With 0.5HP single phase motor Power consumption 2Hrs one unit25 packets per minute 25gm 50gm and 100gm	1
5.	Batch coding machine	With three options	1
6.	Turmeric cooking plant (standing model)changing vessel	Capacity: 250Ltrs. (Approx. 160kg) shell made of 2mm thickness MS, Top open lid Dish and bottom cone with flap gate for discharge the material. Inner pipes are provision for distribute the steam mounted on MS legs	2
7.	Boiler (wood fired) Non IBR	Inner shell made of 8mm thickness MS, Outer shell made of 8mm thickness MS, Chimney hood 2mm thickness MS. And with all standard fitting. Like safety valve, pressure gaure, pressure release valve and level gauge set for water	1
8.	Pipes & fitting : MS & Electrical accessories for fittings	As per requirements	1 set
