

**ONE DAY
SYMPOSIUM ON**

Innovation & Entrepreneurship in Environmental Science for Sustainable Future

18 MARCH, 2025

Organized by Department of Environmental Science

About the Workshop

Research and Entrepreneurship in Environmental Science are critical for developing sustainable solutions to mitigate various environmental issues, create livelihood options and promote a healthier planet for future generations. Developing and implementing technologies that reduce environmental impact, using natural resources, developing biodegradable materials, and sustainable manufacturing processes are the key areas where research based entrepreneurship can create ample of opportunities for the youth having environmental science background to cater the needs of societies specially in tribal areas such as Nagaland. This workshop explores the key areas of research and entrepreneurship in environmental science, their significance, and the pathways to achieving a sustainable future.

Who can participate

PG and Research students from Science stream in NU campus are eligible to participate. **Participations are limited and only 50 students are allowed on first come first serve basis.** No spot registration allowed. Participation certificates will be provided.

Registration details

For registration participants should mail following details: Name, Department, PG/PhD, email id and contact number on the email: bharalip@nagalanduniversity.ac.in on or before 15th March, 2025.
