SYLLABUS OF COURSES TO BE OFFERED
Core Courses, Elective Courses & Ability Enhancement Courses

CHOICE BASED CREDIT SYSTEM (CBCS)

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective and skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. The introduction of uniform grading system in the entire higher education through CBCS in India will benefit the students to move across institutions within India to begin with. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring parity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations, the UGC has formulated the CBCS guidelines.

Outline of Choice Based Credit System:

1. Core Course: A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core Course.

2. Elective Course: Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.

2.1 Discipline Specific Elective (DSE) Course: Elective course offered by the main discipline/subject of study is referred to as Discipline Specific Elective. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).

2.2 Dissertation/Project Work: An elective course involving application of knowledge in solving/analyzing/exploring a real life situation/difficult problem. A Project/Dissertation Work would be of 6 credits. A Project/Dissertation work may be given in lieu of a Discipline Specific Elective paper.

A student is to undertake such a work on his/her own with an advisory support by a teacher/faculty member.

2.3 Generic Elective (GE) Course: An elective course chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective.

A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.

3. Ability Enhancement Courses (AEC): The Ability Enhancement (AE) Courses may be of two kinds: AE Compulsory Course (AECC) and Skill Enhancement Courses (SEC). "AECC" courses are the courses based upon the content that leads to knowledge enhancement. They – (i) Environmental Science (ii) English/MIL Communication – are mandatory for all disciplines. SEC courses are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.

3.1 AE Compulsory Course (AECC): Environmental Science, English Communication/MIL Communication.

3.2 Skill Enhancement Course (SEC): These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based instruction.

DSE 4 Course Title: Project work

Introduction

This course aims to train the students in familiarizing the methods and techniques of art of writing philosophy on the selected topics/themes.

Guidelines: Project-work in philosophy will be "topics-based" in essay style. Instead of working through the history of philosophy focusing on great historical figures and their views

on different topics; focus will be on great philosophical topics and look at what historical and contemporary writers have said about them. Any topic/theme of philosophical concern may be addressed.

The course in charge will give detailed instructions keeping in view that every student learns the fundamentals of doing philosophical writings/practical works. Finalization of topic should be done well in advance and presentation of project work should be completed within the stipulated period fixed by the Department/Course in charge. Start early, be specific, employ a dissertation, use only what is necessary, examples may be used where needed, discuss counter-arguments, be original, strive for clarity, conclusion should be consistent with introduction. Add foot notes and references in support of your discussion/dissertation.

Example of a well organized piece of writing: a. Introduction and statement of thesis b. filling in background, clarifying terminology, spelling out others' views, arguments c. developing own position and arguments d. refuting counter-arguments and conclusion. Dissertation should be submitted to the Course in charge/instructors well typed in double space in A/4 size paper in 12 point font and minimum number of pages will be 25.

Course Objectives

- To introduce students to the central themes of philosophy
- To introduce students to important classical and contemporary philosophers
- To introduce students to the methods for doing philosophy
- To help students appreciate our own ignorance of even our most fundamental beliefs

Prerequisites

- According to the interest of students, topics should be distributed to every student by their class teachers.
- A format of project-work should be introduced to students by the HOD.
- Project should be submitted one month before examination and pattern should be specified to students.

Textbooks

To be specified by the class teacher.

Recommended books

This is a matter of library consultation.
